

## Taxi & Private Hire Training

To support drivers & companies in the Taxi Industry, The Warrington Business School offers a range of flexible training to help drivers improve their skills and their workplace performance increasing quality and efficiency in your organisation. Training will ensure you meet legislative requirements, reduce accidents and incidents and increase customer satisfaction.

### Why do drivers need training?

To maintain the professional image of your trade, meet legislative requirements and increase customer satisfaction.

### Who should do this training?

All drivers who currently work within the industry. At present there is funding available to enable self employed drivers to attend training sessions.

### What's involved?

The NVQs are work based and cover a large range of optional units which allow the course to be mapped to the drivers and organisation needs and the appropriate roles within the trade.

### What type of training is available?

- Level 2 NVQ in Road Passenger Vehicle Driving

### Why choose us as your training provider?

All training is completed under the supervision of drivers with over 75 years of combined knowledge within the trade. We are a grade 1 provider and fully understand the needs within the taxi trade. We will work with you to provide a service that is tailored to meet your specific organisation needs and deliver at a time and a place to lessen the impact on your earning potential.

Currently different parts of the country are making the training compulsory, so it's vital that you take this opportunity.
